beef	41,1%	4,8%	49,7%	2,6%	0,9%
duck	48,1%	5,4%	41,7%	2,9%	0,9%
game	50,5%	5,2%	39,5%	3,2%	0,9%

**Storage conditions:** Store in cool, dry conditions away from direct sunlight.

## Peanut Butter / DogChoc with Antler

Peanut butter is a delicious and healthy treat that can be given to dogs as part of a balanced diet. It is rich in protein, healthy fats, fiber and vitamins, which are essential for the proper functioning of the dog's body.

But 4DOGS peanut butter is not just peanut pulp! In the composition you will also find 5% deer antler, which is a rich source of collagen, protein and amino acids. And in addition, to enrich the composition and make it easier to spread, we added potato starch and brewer's yeast to 4DOGS peanut butter, which are rich in vitamins, minerals and support the immune system and skin health.

**Ingredients:** Roasted peanuts, antler, brewers yeast, potato starch.

## What is the difference between DogChoc and Peanut Butter?

**DogChoc is not chocolate, of course!** Although it has a deep brown color, it is made from peanuts, on which we have left those delicate brown peels.

These peels have antioxidant properties and contain phytosterols, natural plant compounds that can lower blood cholesterol levels. Shelled peanuts contain about 10 times more phytosterols than shelled peanuts.

**Ingredients:** Roasted redskin peanuts, antler, brewers yeast, potato starch.

**Note that peanut butter is high in calories, so it should be given to your dog in moderation. Your dog should be provided with fresh water at all times.**

**Analytical Constituents:**

Protein	25,2%
Carbohydrates	16,0%
Fat	43,0%
Fiber	6,3%

**Storage conditions:** Store in a cool and dry place. Refrigerate after opening. Protect from sunlight.

**Made in Poland!**

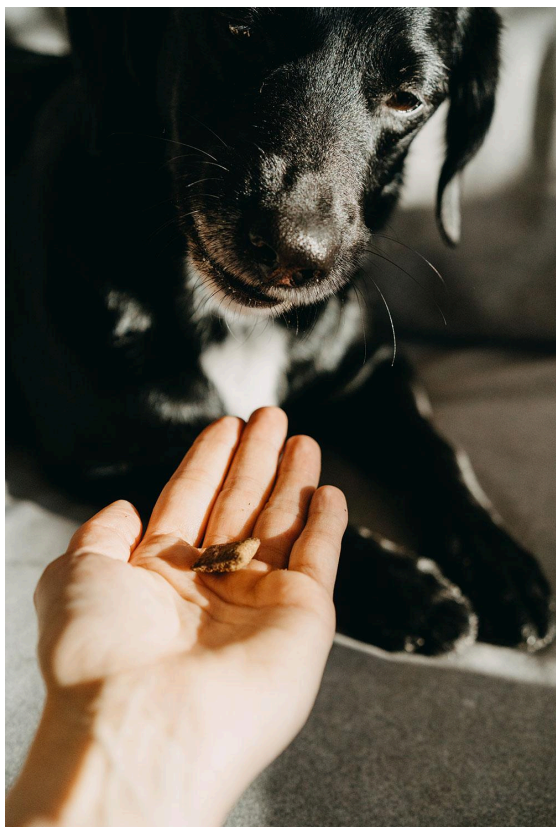

Safe and hygienic packaging

Our jars are protected with aluminum induction seal spacers, which effectively protect the butter from external factors.

# Crunchy Dog Cookies - Treats with Deer Antler

Check out our innovative soft-filled dog biscuits. This is the perfect dog treat that has been enhanced with the addition of deer antler!

**Available in 3 versions:**

- skin and coat,
- joints,
- training cookies.

The innovation of these treats lies in the introduction of deer antlers into their composition. Thanks to this, they have an increased nutritional value, support the correct functioning of physiological processes, improve condition, stimulate the immune system and have a regenerative effect on damaged tissues.

**Composition:** linseed pomace, sweet potato flour (potato starch 50%, potato protein 50%), brewer's yeast, beef fat, linseed oil, fish oil, rapeseed oil.

# Dog Cookies with Antler - Skin&Coat

These dog treats with deer antler have been supplemented with biotin, omega 3/6/9 acids, zinc and active substances. They are an excellent dog snack to support the condition of the skin and coat. They can be served between meals, as a reward or as a walking or training treat.

**Recommendations:** supplementing the diet of dogs with these deer antler treats helps to improve skin, hair and coat condition. Especially recommended for dogs at risk of dermatological problems.

## Properties of Antler Cookies Skin&Coat
