

Polish family company manufacturing the highest quality chews and toys for dogs

Successfully certified by:

Company History

TNC Pets (The Natural Chews) originated from a family-run antler business with deep roots in nature and wildlife. For generations, we have specialized in collecting and exporting **naturally shed red deer antlers**, valued in traditional medicine and artisanal crafts. Recognizing the **nutritional value and durability** of antlers, we expanded into producing pet products enriched with antler, ensuring dogs can benefit from their **rich mineral content, long-lasting chewability, and natural composition**.

All our antlers are ethically sourced from **wild, free-roaming deer**, without human intervention. This guarantees a **humane, sustainable, and eco-friendly** approach, ensuring that no animals are harmed. We focus on delivering **high-quality, natural chews** that support **dental health, joint care, and mental stimulation** for dogs. Our production meets the **highest veterinary and safety standards**, and in 2023, we proudly obtained **BRC(GS) certification**, further proving our commitment to excellence.

As a brand, **4DogsOriginal**, we are constantly evolving, creating **innovative, healthy, and safe products** for pets. Our extensive range includes **antler chews, meat treats, and functional snacks enriched with natural ingredients**. We also offer **private label production**, allowing partners worldwide to create custom, premium-quality pet products.

With a passion for natural chews and sustainable practices, we continue to shape the future of healthy pet nutrition.

CÖLLAGEN LINE

Properties of Deer Antler

22% of pure collagen

8/8 essential amino acids

38% of digestible protein

Benefits of Collagen Line

healthy bones and joints

beautiful skin and coat

digestion support

Collagen Line is our new range of **chews and treats enriched with deer antler**. It includes snacks in the form of dried meat strips, gnocchi, sticks, and meat balls, as well as easy-to-split meat bars and training meat cubes. As part of the Collagen Line, we are also able to offer you peanut butter and dogchoc, which are also enriched with deer antler. They are perfect for filling toys and mats, and for helping to administer medication or supplements.

Deer antler is a unique natural ingredient, rich in valuable nutrients essential for a dog's overall well-being. It contains **22% pure collagen**, which plays a crucial role in maintaining healthy joints, cartilage, and connective tissues. Additionally, it provides **all 8 essential amino acids**, supporting muscle regeneration and overall body function. With **38% digestible protein**, deer antler contributes to strong muscles, improved endurance, and balanced nutrition. These natural components make it an outstanding addition to a dog's diet, offering both health benefits and a satisfying chewing experience.

Collagen Line products not only provide delicious and long-lasting treats but also actively support your dog's **joint and bone health**, promoting flexibility and mobility at all life stages. The high collagen content enhances **skin elasticity and coat shine**, giving your dog a healthy and vibrant appearance. Additionally, these treats aid **digestion and gut health**, ensuring better nutrient absorption and overall well-being. By choosing Collagen Line, you provide your dog with a natural, nutrient-rich, and highly beneficial supplement in the form of enjoyable and tasty chews.

Meat Strips with Antler

Deliciously meat treats with antler collagen!

Meat Strips with Antler combine high-quality meat with deer antlers to create a nutrient-packed snack that satisfies your dog's cravings while supporting their health. These strips are durable yet easy to split, making them suitable for all breeds.

Peanut Butter with Antler

Healthy Spread Enriched with Deer Antler!

Peanut Butter with Antler is a nutritious spread made from roasted peanuts, enhanced with 5% deer antler to provide additional collagen, protein, and amino acids. It also contains brewer's yeast to support the immune system. This spread is perfect for use as a treat, in toys, or for hiding medication.

- Made with natural peanuts and enhanced with deer antler.
- Rich in protein, healthy fats, fiber and vitamins.
- Contains collagen and amino acids from antler for joint, skin and overall health.
- Includes brewer's yeast for immune support.
- Versatile use: as a spread, in toys or with medication.

Peanut Butter with Antler is a versatile and healthy addition to your dog's diet, offering both nutritional benefits and practical uses.

Our peanut butters for dogs are available in the classic version and DogChoc made with redskin peanuts.

Sustainable product packaging

As a manufacturer and distributor of natural products, we make every effort to ensure that their packaging is also as nature-friendly as possible. Above all, whenever possible, we use as few unnecessary materials as possible in the packaging and labeling of our products.

Most of the products we offer are durable, so we only stick or attach labels to them. No foil or unnecessary, redundant packaging. Where the nature of the product requires plastic packaging, we use LDPE mono film packaging which is 100% recyclable.

Naturally, the labels - whether cigarband or cardboard - are printed on certified eco-friendly paper media. The cigarbands are then glued with food safe glue and the cards are tied with natural string.
